Staff Accountant – Public Accounting | Hocheiser CPA

Hiring organization
HOCHEISER CPE

Employment Type
Full-time

Date posted
July 14, 2026

Description

Are you looking for a Staff Accountant position where you can grow your accounting career and gain hands-on experience in tax preparation, bookkeeping, and client advisory services?

At Hocheiser CPA, we are a small, established CPA firm providing tax and accounting services for individuals and small businesses. You'll have the opportunity to learn the full picture — from financial statements and reconciliations to individual and business tax returns.

In a larger accounting firm, it can be easy to become focused on one small area. Here, you'll work directly with experienced CPA leadership, communicate with clients, and gain valuable public accounting experience.

We offer a supportive, in-office environment where collaboration happens every day, your
questions are encouraged, and your contributions make a real difference.

What you'll do:

• Manage bookkeeping, account reconciliations, financial statements, and client accounting services
• Prepare individual and business tax returns with guidance and mentorship from senior staff
• Assist small business clients with accounting questions and day-to-day support
• Help improve workflows, processes, and technology systems as our firm continues to grow

Who we're looking for:

• Bachelor's degree in Accounting
• 1–3 years of public accounting experience preferred
• Experience with QuickBooks, ProSeries, and Microsoft Excel
• Strong attention to detail, professionalism, and commitment to client confidentiality
• Ability to work independently while knowing when to collaborate and ask questions

What we offer:

• Competitive salary based on experience
• Weekly direct-deposit payroll
• 401(k) eligibility after one year of service
• Paid vacation, sick time, and holidays
• A collaborative workplace where you learn directly from experienced professionals and become an important part of the team

If you're looking for a Staff Accountant role where you can build your skills, work directly with clients, and grow within a small CPA firm, we would love to hear from you.

Apply to join Hocheiser CPA.
